## PROFILE

Master's student in Cybersecurity at VŠB – Technical University of Ostrava with a Bachelor's degree in Information Technology. I focus on Java (backend and frontend) and web development, and I have hands-on experience from a front-end internship and from hardware and OS work in industry. Curious about AI and keen to work on projects that use it in practice. Looking for internships, part-time roles and web projects.

## EXPERIENCE

**Web Developer** Freelance pizzeriecomo.cz  
**Pizzeria Como, Brandýs nad Labem**

- Complete restaurant website for a paying client, from draft to launch
- Reservations, weekly menu, 3D tour, gallery — HTML, CSS, JS, PHP

**Industrial PC Technician** Part-time 2025 – present  
**Autocont IPC a.s.**

- Assembling, configuring and testing industrial PCs for deployment
- Diagnosing and repairing hardware components
- Installing and configuring operating systems

**Front-end Developer** Internship 2025 · 3 months  
**profiq s.r.o., Ostrava**

- Developed web applications as part of a development team
- Contributed to the IndyRIOT project
- Built a proof-of-concept application for communicating with AI

**Earlier experience** 2022  
**Mobile Repair Technician**, ITStar, Dublin (Ireland) · **IT Support**, primary school in Bohumín

## EDUCATION

**Master's (Ing.) — Cybersecurity** 2026 – present  
**VŠB – Technical University of Ostrava, FEecs**

**Bachelor's (Bc.) — Information Technology** 2023 – 2026  
**VŠB – Technical University of Ostrava, FEecs**  
Software development, OOP and databases. Team project: sports court reservation system (Java).
